TRUE STORIES WELL TOLD

## NARRATIVE WRITING FELLOWSHIPS IN SCIENCE AND RELIGION

<http://TWPScienceAndReligion.org>

### What is it?

Do you have a compelling true story to write about **harmonies between science and religion**? Would you like to be part of a community of talented writers also motivated by this subject? Want to meet and dialogue with publishers and editors who are interested in your work?

We will award twelve **\$10,000 two-year Think Write Publish Science & Religion Fellowships**.

Fellows will participate in **three intensive workshops** focusing on developing, writing, marketing, and publishing their creative nonfiction stories about harmonies between science and religion. Fellows' work will be mentored throughout by experienced writers, editors and teachers and will be featured in a series of regional and national events.

### Eligibility Requirements

**Anyone may apply to be a Fellow.** Because we are searching for unfamiliar narratives and voices that can invigorate science-religion dialogue, we want to cast a wide net; we are not preferentially seeking to recruit well-established writers.
